

Why NAKIVO Backup for Microsoft 365

NAKIVO Backup & Replication delivers reliable backup and instant granular recovery for Microsoft Teams, Exchange Online, OneDrive for Business and SharePoint Online data. With robust data protection, secure archiving and streamlined compliance features, the solution helps you maintain uninterrupted operations and high productivity in any scenario.

Microsoft Teams

Exchange Online

OneDrive for Business

SharePoint

KEY BENEFITS SUPPORTED BY DATA

FAST

2X

Faster incremental backup with instant full/granular recovery. Takes only 2 minutes to deploy and run the first backup job.

AFFORDABLE

49%

Lower TCO than competitors, starting from only **\$0.80 per user/month** for a 3-year subscription.

TOP-RATED

4.8

Average score on Gartner Peer Insights, and 5-star ratings on top IT communities for great user experience and functionality.

“ We’ve been backing up **2,500 Microsoft 365 user accounts** for over 2 years. We appreciate the enterprise feature set that enables us to protect and recover Microsoft 365 and our on-prem VMware environment from a single pane of glass.

Robin Damen, CEO at Virtual Computing

“ We protect our virtual environment and Microsoft 365 data... we enjoyed the solution so much, we decided to protect **1,000 Exchange Online mailboxes**.

Cameron Rezvani, Senior Systems Engineer at Orange Coast Title Company

“ We chose NAKIVO for Microsoft 365 to back up our 110 mailboxes. The possibility to recover entire mailboxes, selected files, and folders in case of deletion is the main advantage.

Lars Weimar, Head of IT at HAM Precision

YOU'RE IN GOOD COMPANY

Fast Backup

Run incremental backups with native Microsoft change tracking to transfer only changed data, saving time and storage space.

Instant Recovery

Restore entire backups or specific Microsoft 365 items (emails, files, lists, channels, etc.) to the original or a different account.

Ransomware Protection

Keep your Microsoft 365 backups offline on local storage for more secure archiving and ransomware resilience.

Flexible Deployment Options

Install on Windows or Linux; deploy as a VMware VA, Nutanix VA or an AWS AML; or install on NAS to create a powerful 5-in-1 backup appliance.

Flexible Retention

Create up to 4,000 recovery points and rotate them daily, weekly, monthly or yearly based on custom schedules.

Streamlined Compliance

Locate and retrieve the data you need from backups quickly to ensure compliance and fulfill e-discovery requests.

Easy Administration

Manage all of your data protection activities from a simple web interface featuring a built-in calendar dashboard.

Robust Security

Assign preset/custom roles and permissions to prevent unauthorized access to your backups. Enable 2FA for an additional layer of security.

Easily Scalable

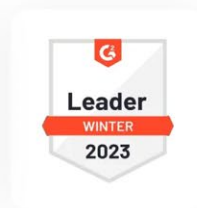

Protect thousands of Microsoft 365 users in a single deployment of the software with NAKIVO's flexible per-user subscription model.

Excellent 24/7 Support

Resolve issues quickly with our skilled technical support engineers – available around the clock via in-product chat, email and phone.

TRUSTED BY 27,000+ CUSTOMERS WORLDWIDE
